RE-QUERY

Dear Sir/Ma,

With reference to the query, I would like to clarify that High Impact Career is a career development company which supports its cohorts by coaching, mentoring and skill development.

I enrolled for a Data Analysis Bootcamp with High Impact Careers, where I was trained for a period of three months (April – June 2022).
The training sessions were virtually delivered during weekends and Wednesdays after office hours.

The mix up might be due to how the period of my training with the institute was coined in my CV sent to HR for the advertised vacancy in HQ. It was a technical training period with them and not any form of employment with them.

Attached is my certificate that clearly states the duration of the Bootcamp, an Introductory email from High Impact Career with information on the delivery, timing and content of the Bootcamp.

This is for your kind information and proper awareness.

I promise to continue to give my best on this job to NIRSAL MFB and add value to the institution.

Thank you.
